Web Development III

Pick up a predefined quiz!

Test your knowledge on a specific topic
with our predefined quizzes!

PHP
181 Questions

Linux
99 Questions

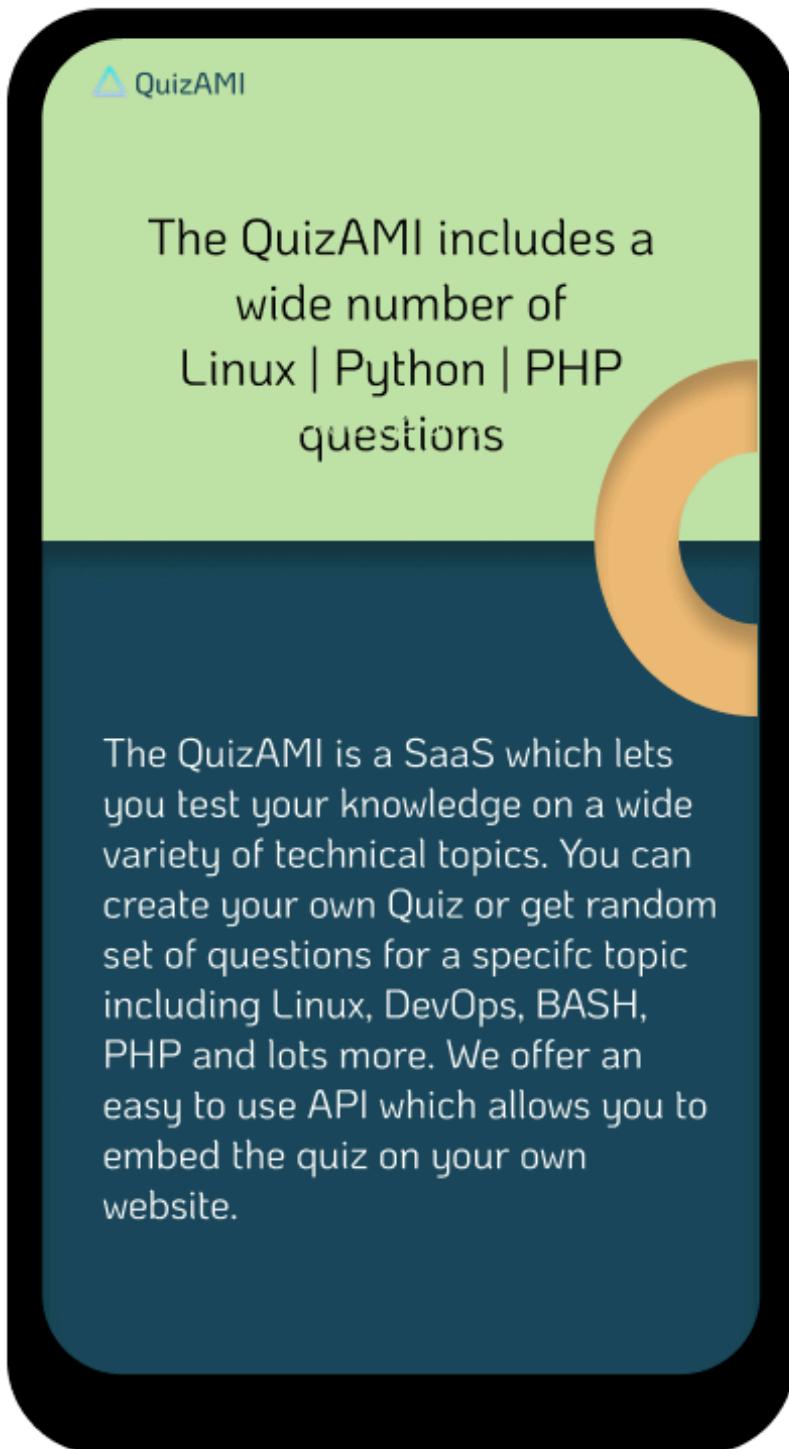

Kubernetes
136 Questions

Python
0 Questions

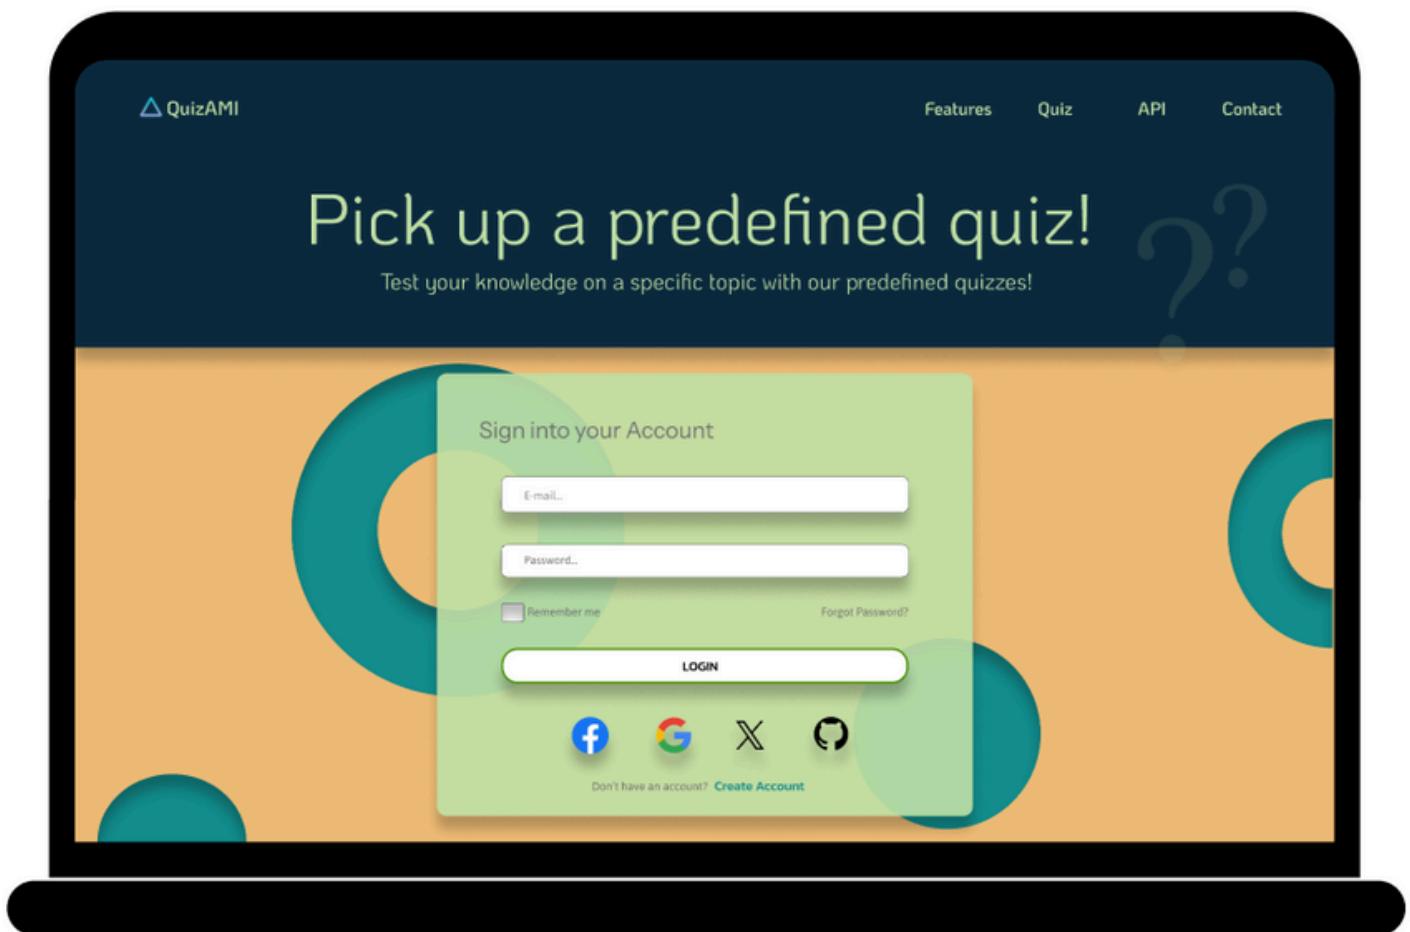

Web Development III

A smartphone screen displaying the QuizAMI mobile application. The top half of the screen is light green with a black border, and the bottom half is dark blue. In the top left corner, there is a small QuizAMI logo icon. The main text in the center of the screen reads: "The QuizAMI includes a wide number of Linux | Python | PHP questions". Below this, in the dark blue section, there is a detailed description of what QuizAMI is: "The QuizAMI is a SaaS which lets you test your knowledge on a wide variety of technical topics. You can create your own Quiz or get random set of questions for a specifc topic including Linux, DevOps, BASH, PHP and lots more. We offer an easy to use API which allows you to embed the quiz on your own website."

The QuizAMI includes a wide number of Linux | Python | PHP questions

The QuizAMI is a SaaS which lets you test your knowledge on a wide variety of technical topics. You can create your own Quiz or get random set of questions for a specifc topic including Linux, DevOps, BASH, PHP and lots more. We offer an easy to use API which allows you to embed the quiz on your own website.

The image shows a mobile device displaying the QuizAMI website. The top navigation bar includes a logo, 'Profile', 'Features', 'Quiz', 'API', and 'Contact' links. The main heading 'CHOOSE YOUR TYPE NOW! GAIN KNOWLEDGE' is followed by a subtext 'Test your knowledge on a specific topic with our predefined quizzes!' Below this, a section titled 'QUIZ FOR ALL!' displays eight quiz categories in a grid:

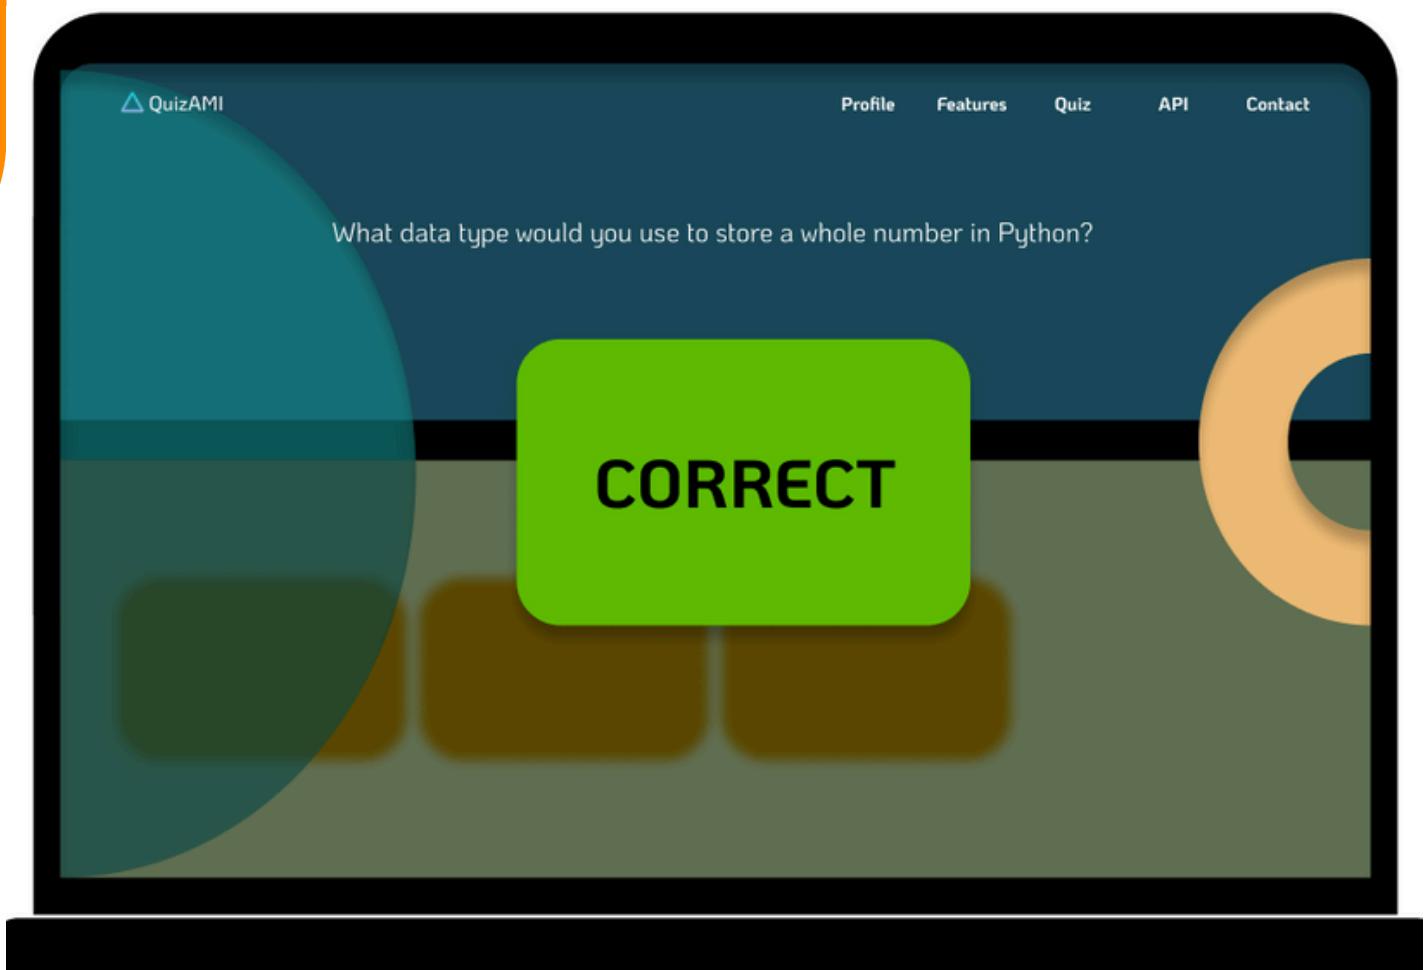

- BASH (77 Questions)
- PHP (181 Questions)
- Linux (99 Questions)
- Laravel (10 Questions)
- Docker (125 Questions)
- Kubernetes (136 Questions)
- Python (0 Questions)
- WordPress (66 Questions)
